PUCT Docket No. 52221

Public Utility Commission of Texas – June 16<sup>th</sup>, 2021

2021 JUN 17 AM 9:05

FILED BY JAMES L. A.  
FILING CLERK

**Joint Formal Complaint of Thigbe Aggregation Members (over 50 KW)  
against Mid American Energy Services LLC**

This filing is to supplement our original complaint with further information regarding Mid-American Energy's (MES's) marketing practices. Attached at the end of this document is a piece of marketing material that was supplied to us. We have been contacted by several other MES customers with the same complaint and understanding regarding their fixed price contracts. Mainly that they were supposed to be fixed prices.

We believe that this marketing material, which we have been told is no longer being distributed by MES (something we would hope to confirm as part of the fact finding for this case) is another indication that any reasonable assessment of their materials and contract language would conclude that they are mis-leading and deceptive regarding their fixed price product. If they do not consider ancillary costs fixed then why does this document show them as fixed? It's either fixed or it's not.

Respectfully submitted,

Mike Brasovan,  
President  
Thigbe LLC
